EB 30/1 Electric Broom

Designed for daily use

EB 30/1: Ready for emergencies. A boon for all those who want to maintain a good image.

The Kärcher EB 30/1 cordless electric sweeper is a commercial-duty battery-operated electric broom designed for daily use in restaurants, hotels, offices, stores, theaters and other professional facilities where quick, efficient interim cleaning is necessary to clean up spills without disturbing employees or customers and is ideal for use when using a canister and upright vacuum isn't practical. Far more durable than typical consumer-style electric brooms, the ergonomically designed EB 30/1 features a run-time of up to 45 minutes and a large capacity dustpan for collecting dirt.

Independent of Mains Supply:

Equipped with a powerful, quick-change rechargeable battery, the EB 30/1 can be used anywhere since it requires no power outlet.

Always Ready For Operation:

With the EB 30/1 you can react quickly without causing any fuss because it operates unobtrusively. A good method of interim cleaning in cinemas or during shop opening hours, for example.

Whisper Quiet and Unobtrusive:

As the unit works very quietly, dirt and debris can be removed immediately and discreetly to keep floors well-groomed even during normal opening hours.

This unit's universal joint can be easily locked or unlocked as required.

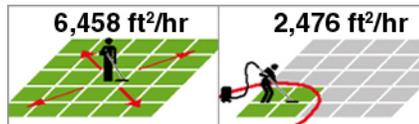

Reduces Risk of Trips and Falls:

As the EB 30/1 operates independently of the mains supply, there is no power cord that could represent a trip hazard and no annoying corded-off areas.

Good Area Performance:

The EB 30/1 is equipped with a high-performance battery which runs for up to 45 minutes in continuous operation, which is equivalent to an area performance of over 6,400 square feet per hour unrestricted radius of action.

Effective Cleaning Results:

The efficient roller brush removes coarse as well as fine dirt thoroughly and freshens up the carpet pile at the same time. The brush can be changed without tools. The scissor guide groove on the roller brush simplifies removal of hairs and threads.

Ergonomic Design:

The height-adjustable telescopic tube and ergonomically shaped handle ensure a comfortable working position, even for extended periods of operation. The unit is switched on and off by way of a large foot switch.

Extended Running Time:

The EB 30/1 has a large-capacity dustpan for coarse and fine dirt. A second battery is available as an optional extra to double the unit's running time.

TECHNICAL DATA EB 30/1:

Part Number	1.545-104.0
Sweeping Path	12" (300 mm)
Dustpan Capacity	67 in ³ (1 l)
Noise Level	56 cBA
